Nutrition can make the Difference

The right feed formulation, by unlocking the full genetic potential of these animals, can out-perform common results obtained in natural environments. Enhancing horn growth, shape and volume, Improving fertility, fur radiance or reinforcing the stature of the animals are some of the key characteristics that feed can dramatically support. Achieving these goals will increase the value & profitability of your game animals with direct return on investment.

Security Ensured

For these valuable game animals, the quality of raw materials is of utmost importance, which is why we apply international best practice in quality assurance. Our premix, produced in our ISO22000 certified factory, follow the highest quality standards and our technical team applies strict monitoring with all our customers.

ONS SIEN UIT NA 'N GOEIE VEILING VAN GEHALTE DIERE

Dit is 'n besondere voorreg om ons eerste veiling van kwaliteit teeldiere aan te bied. Na sowat 18 jaar se sorgvuldige teel voel ek dat ons nou reg is om 'n wye verskeidenheid uitstaande genetika aan die mark beskikbaar te stel tydens ons eie veiling.

Ek het persoonlik seker gemaak dat net die heel beste, uitgesoekte diere van gehalte bloedlyne op die Dries Visser Pure-Bred Game veiling te koop aangebied word. Alle kopers kan dus gerus wees dat wanneer hulle op ons veiling koop, hulle pragdiere koop. Dít waarborg ek persoonlik.

Toe ons een van net twee Zambiese swartwitpens-teelgroepe in 1999 Suid-Afrika toe bring, kon ek nie raai dat die teel van hierdie pragdiere huidige afmetings sou aanneem nie. Hieroor is ek baie bly. Ons is trots dat ons swartwitpense almal met die egte Zambiese swart masker spog. Hierdie unieke eienskap herinner sterk aan die reuse swartwitpens van Angola.

Alhoewel horinglengte in alle teeldiere van groot belang is, wou ons seker maak ons swartwitpense se gitswart maskers is goed gevestig. Dit het ook so gebeur. Toe die swart masker sterk in ons verskeie teelgroepe ingeteel is, het ons ook op horinglengte en liggaamsmassa begin konsentreer.

Hierdie teelstrategie het mooi vrugte afgewerp. Ons 50" teelbul Busanga is 'n sprekende voorbeeld van 'n diere met 'n gitswart masker, 50" horings en 'n mooi, swaar lyf. Hierdie seun van ons legendariese 49"+ bul Big Boy, se nageslag is op ons veiling beskikbaar, saam met 'n wye verskeidenheid ander besondere swartwitpense.

Ek reken ons stel een van die grootste groepe kwaliteit Zambiese swartwitpensteelbulle ooit op veiling beskikbaar. Ons verkoop ook gehalte koeie en verse, almal uit die oorspronklike Dries Visser-bloedlyn. Moenie hierdie geleentheid deur jou vingers laat glip nie. Dit is 'n kans duisend om fantastiese Zambiese swartwitpense te bekom.

Behalwe vir swartwitpense is daar ook uitstaande buffels, bastergemsbokke, koedoes, koning en goue wildebeeste, gemsbokke, njalas, verskeie tipes rooibokke en ander diere beskikbaar.

Ek bedank graag ons vriende in die wildbedryf wat van hulle top diere op ons veiling beskikbaar stel. Hierdie kwaliteit telers sluit in: Bdumbi Too Game Ranch, Boegasvlei Wildsboerdery, Buffelsdrift Boerdery, Greater Kudu Club, Jaco Pretorius Familie Trust, Makloppie Telers, Makoba Game Breeders, Mananga Safaris, Masara Genetics, Meletse Breeders, Njabulo Game Farm, Northern Wildlife Holdings, Shakawe Private Game Reserve, Silent Valley, Streicher Buffalo, Swinburne Game Breeders, Thithombo Game Breeders, Trollope Brothers, Uzzi'a Game Breeders, Waterberg Holdings, Westhuizen Estates.

In hierdie bylaag kan jy van die diere en genetika sien wat beskikbaar is. Besoek ook ons webtuiste by driesvisser.com om die aanlynkatalogus te besigtig. Ons opdateer hierdie katalogus voortdurend met die nuutste inligting, so maak seker jy kyk gereeld hier en ook na die Wildswinkel app.

Ek bedank graag vir Lood Bester en sy uitstekende span by Wildswinkel vir hulle entoesiastiese bydra om seker te maak ons veiling verloop vlot. Ons is bevoorreg dat Wildswinkel ons veiling aanbied en sien uit na 'n goeie veiling van gehalte diere in die nuwe Wildswinkel veilingslokaal. Ons afslaer Brandon Leer is 'n wildkenner soos min. Baie dankie ook aan jou, Brandon. Ons is in goeie hande met jou aan die stuur.

Laastens wil ek graag die wildbedryf as geheel bedank vir julle ondersteuning. Dit is 'n riem onder die hart.

Vriendelike groete
Dries

DIE BELANGRIKHEID VAN GENETIESE DIVERSITEIT, SOOS IN DRIES VISSER SE TEELKUDDE

E-POS VANAF PROF BETTINE VAN VUUREN AAN DRIES VISSER

"Dries,

Aangeheg 'n paragraaf [regs] re hoe belangrik genetiese diversiteit is. Ter verduideliking ('n opsomming van die aangehegte paragraaf):

Die eerste punt is dat genetiese diversiteit een van die hoekstene is vir seleksie. Daar kan geen seleksie plaasvind vir fenotipiese eienskappe as daar nie diversiteit is nie.

As 'n persoon dan baie sterk seleksie toepas oor tyd, verloor jy baie vinnig diversiteit (in die mees intense vorm as jy in teel / lyn-teel).

Die tweede punt is dat die plafon op wat jy kan bereik eintlik baie hoer is as jy 'n groep teeldiere het met diversiteit – jy kan vir etlike meer generasies selekteer sonder om weer uit te teel / nuwe diere in te bring.

Die laaste punt is dat dit wel moontlik is om aanneembare vlakke van diversiteit in suiwer teelgroepe te behou – hier is jou diere 'n voorbeeld."

GENETIC DIVERSITY, AND THE ROLE IN BREEDING PROGRAMMES

Genetic diversity is widely recognized as a fundamental requirement for selection. As such, it is an important consideration in progressive breeding programmes. Strong selection for specific desirable traits can lead to loss of diversity over time as a result of very selective breeding which often involves crossing related individuals. When necessary, genetic diversity can be restored by breeding unrelated individuals which creates some heterozygosity in the next generation. Another way to make rapid progress in breeding programmes (where the improvement of desirable phenotypic traits is required) is to maintain acceptable levels of diversity in breeding herds with desirable phenotypes. In this case, a broad base of genetic potential is available for phenotypic expression and selection, without the negative pitfalls that typically accompany intense selection. In essence, the ceiling on what can be accomplished through selection is higher because of the wide variety of genetic possibilities in the offspring. It will also allow for several more generations of intense selection before any side-effects from low diversity (or inbreeding) becomes obvious. Maintaining acceptable levels of genetic diversity is possible within pure genetic groups with specific geographic origins.

in respect of sales by

Wildswinkel Veilings (Pty) Ltd – Registration Number: 2015/316030/07

24 February 2017, 11:00, Wildswinkel Auction Venue, Bela Bela

(As auction house, herein after referred to as the “Auctioneer” and the person conducting the auction referred to as the “auctioneer”)

1. All goods sold by auction will not be subject to a reserve price, unless specifically stated otherwise by the auctioneer at the start of the auction.
2. It is not allowed that the Owner / Seller, his agent or the Auctioneer may bid on any of the Owner's / Seller's goods sold by auction. However, individual Sellers may bid on other Sellers' animals.
3. These Rules of Auction comply with Section 45 of the Consumer Protection Act, Act 68 of 2008 (“the Act”) and the Regulations of the Act as applicable, which read as follows:

Section 45: “Auctions”

- 1) *In this section, “auction” includes a sale in execution of or pursuant to a court order, to the extent that the order contemplates that the sale is to be conducted by an auction.*
- 2) *When goods are put up for sale by auction in lots, each lot is, unless there is evidence to the contrary, regarded to be the subject of a separate transaction.*
- 3) *A sale by auction is complete when the auctioneer announces its completion by the fall of the hammer, or in any other customary manner, and until that announcement is made, a bid may be retracted.*
- 4) *Notice must be given in advance that a sale by auction is subject to—*
 - a) *a reserved or upset price; or*
 - b) *a right to bid by or on behalf of the owner or auctioneer, in which case the owner or auctioneer, or any one person on behalf of the owner or auctioneer, as the case may be, may bid at the auction.*
- 5) *Unless notice is given in advance that a sale by auction is subject to a right to bid by or on behalf of the owner or auctioneer—*
 - a) *the owner or auctioneer must not bid or employ any person to bid at the sale;*
 - b) *the auctioneer must not knowingly accept any bid from a person contemplated in paragraph (a); and*
 - c) *the consumer may approach a court to declare the transaction fraudulent, if this subsection has been violated.*
- 6) *The Minister may prescribe requirements to be complied with by an auctioneer, or different categories of auctioneer, in respect of—*
 - a) *the conduct of an auction;*
 - b) *the records to be maintained with respect to property placed for auction; and*
 - c) *the sale of any such property by auction.*
4. The auction is conducted for the normal and voluntary disposal of the Owner's / Seller's goods.
5. The auction will start at the published time. The auction will not be delayed to allow any specific person or more persons to take part in the auction.
6. All goods sold at the auction are sold by the Auctioneer as agent on behalf of the Owner / Seller. The Owner / Seller hereby authorises the Auctioneer to issue invoices, credit and debit notes as applicable on its behalf and agrees not to issue the aforementioned for the same supply. The Owner/Seller also hereby authorizes the Auctioneer to collect the purchase price from the Buyer and the Owner / Seller do hereby cede to the Auctioneer all the Owner / Seller's rights, title and interest in and to its claim for payment of the purchase price against the purchaser, which session the Auctioneer do hereby accept.
7. The purchase price of the goods sold by auction specifically excludes VAT and VAT must be added to the purchase price and paid by the Buyer unless specifically indicated otherwise. Declaration and compliance related to all applicable taxes is the responsibility of the Owner/Seller and Buyer as relevant.
8. Risk in respect of profit and loss in the goods sold shall pass to the Buyer upon the fall of the hammer and upon acceptance of the bid by the Seller. This risk will specifically exclude mortality of the goods. The risk in mortality of the goods will remain with the Seller until the goods are loaded on the Buyer's transport. Notwithstanding the passing of risk, ownership shall remain vested in the Seller until such time as the full purchase price has been paid to the Seller.
9. Delivery of the goods sold at the auction, shall only be given to the Buyer upon the Buyer fully performing its payment obligations in accordance with these conditions of sale. The Owner / Seller shall be responsible for costs incurred to deliver the goods on the Buyer's transport. 10. The parties specifically agree that no bid may be retracted after the bid has been knocked down (fall of the hammer) and accepted by the Owner / Seller, unless the Owner / Seller consents thereto in writing.
11. Subject to any reserve price placed on any of the goods by the Owner / Seller, and the provisions of clause 12 and 13 below, the Buyer at any sale by auction shall be the highest bidder indicated by the auctioneer by the fall of the hammer or by such other means as the auctioneer may select.
12. The auction shall take place under the direct and exclusive control of the auctioneer. The auctioneer reserves the right, in its sole discretion, to refuse the bid of any person, to regulate the bidding and to indicate the highest bidder. If the auctioneer suspects that a bidder has not made a bona fide bid, or is unable to pay the purchase price or has not made satisfactory arrangements for payment of the purchase price, he may refuse to accept the bid of such bidder or accept it provisionally until the bidder has satisfied him that he is in a position to pay the purchase price or that he has made satisfactory arrangements for payment thereof. On refusal of a bid under such circumstances the goods may immediately be re-auctioned.
13. In the event of a dispute arising amongst the bidders and / or the Auctioneer, the goods in dispute shall, at the sole discretion of the Auctioneer, be re-auctioned.

22. The Buyer shall, prior to the sale, ascertain whether there are any defects in the goods and any bid by a Buyer shall be considered as acceptance of the goods with any patent or latent defects in their condition at the time of sale.
23. The Buyer shall not be entitled to withhold payment of the purchase price to the Auctioneer as a result of any possible or pending claim that he may have against the Owner / Seller on the grounds of misrepresentation or for any other reason whatsoever.
24. The purchase price is payable by the Buyer to the Auctioneer via electronic transfer (“EFT”) on the date of sale (“the payment date”) unless other payment terms and or means are agreed between the Auctioneer and the Buyer.
